   a) Weather
   b) Climate
   c) Natural features
   d) Precipitation

iv) Proper arrangement of the last four (4) planets of the solar system according to their position from the sun is;
   a) Uranus, Neptune, Jupiter and Saturn
   b) Jupiter, Saturn, Uranus and Neptune
   c) Earth, mars, Jupiter and Neptune
   d) Jupiter, Saturn Earth and Neptune

v) One among the major relief features of the continents is mountains which can be classified on the basis of
   a) Their heights
   b) The way they were formed
   c) Location
   d) Economic importance

vi) The earths surface consists of many features, but the main four relief features are
   a) Plains, plateau, moon and river
   b) Plateau, mountains, plateau and sun
   c) Basin, mountains, plateau and plains
   d) Sea, river, oceans and plains

vii) Each continent of the earth has its unique characteristics compared to the other. For example, among those continents one is almost entirely made up of islands which is
   a) Africa
   b) North America
   c) Australia
   d) Europe

viii) The main source of energy on the earth is
   a) Wind
   b) Water
   c) Natural gas
   d) The sun

ix) Big bang theory was proposed by Lemaitre Georges and Edwin Hubble in 1920s, and explains about
   a) Gravitational force
   b) Centrifugal force
   c) Planet small
   d) Great explosion occurred

x) The following are the evidences of the earth's rotation EXCEPT
   a) Sunrise and sunset
   b) Shape of the earth
   c) Solar system
   d) Day and night

i	ii	iii	iv	v	vi	vii	viii	ix	x

STUDENT'S NAME _____

2. Match the items in list A with their corresponding response in list B.

LIST A		LIST B
i.	Occurs when the earth is nearest to the sun	A. Axis
ii.	Simply refers to the equal length between day and night	B. Orbit
iii.	Occurs when the earth is at the furthest position from the sun	C. Perihelion
iv.	The only latitude that is great cycle	D. Galaxy
v.	Imaginary line about which a body rotates	E. Equinox
		F. Aphelion
		G. Solstice
		H. Equator
		I. latitude

List A	i	ii	iii	iv	v
List B					

SECTION B (70 MARKS)
Answer **all** questions in this section

3. The statements below are either true or false items. Write **T** if the statement is true or **F** if the statement is false.
   i) Continental slope and continental shelf are examples of features of the ocean floor _____
   ii) Geography is related to many other disciplines, some of them are geology and biology _____
   iii) Physical geography is concerned with the study of man-made features found on the earth's surface _____
   iv) Human geography focuses on the structure of the earth, atmospheric processes and the formation and distribution of landforms_____
   v) Environmentalists protects and conserve environment _____

i	ii	iii	iv	v

4. What do you understand by the following geographical terms?
   i) Earth's rotation
   ....
   .....
   .....
   ii) Earths revolution
   ....
   .....
   .....
   iii) A continent
   ....
   .....
   .....
   iv) Volcanic mountain
   ....
   .....
   .....

STUDENT'S NAME _____

v) Geography

……

……

……

5. The earths rotation has many effects. Mention five of them.

i) ……

……

ii) ……

……

iii) ……

……

iv) ……

……

v) ……

……

6. Draw and label a diagram showing the features of the ocean floor

7. Mention four features formed due to the interaction between landmasses and the waterbodies

i) ……

……

ii) ……

……

iii) ……

……

iv) ……

……

8. Differentiate the following geographical terms

i) Natural features and man-made features

……

……

STUDENT'S NAME _____

ii) Natural vegetation and planted vegetation

……

……

……

iii) Ocean and lakes

……

……

……

iv) Physical geography and human geography

……

……

……

v) Lunar eclipses and solar eclipse

……

……

……

9. a) As a knowledgeable student, identify four theories and hypothesis that explains about the origin of the earth

i. ……
ii. ……
iii. ……
iv. ……

b) Describe six pieces of evidences that proves the spherical shape of the earth

i. ……
ii. ……
iii. ……
iv. ……
v. ……
vi. ……

c) Find the longitudinal position of Budapest whose local time is 4:00 pm when the local time at Frankfurt located at 10E is 2:20PM.

STUDENT'S NAME _____

SECTION C (15 MARKS)
Answer Question 10

10. Ndunguru and Mapunda were taught by their geography teacher that, vegetation plays crucial role in supporting human life in variety of ways. By using fives (5) points, explain the importance of vegetation to human life
