PATHEX REVIEW

"Pathex Review" Number Three

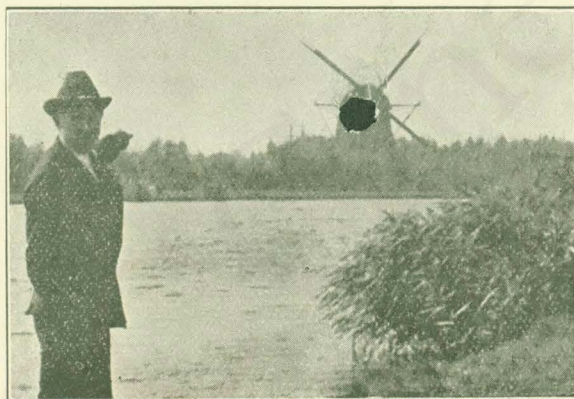

No. R3 One Reel \$1.75

Fighting the River Flowers: How the Florida rivers are being cleared of the beautiful but pestiferous water hyacinth. **Signs of Spring:** The polar bears of the circus start their spring training. **Philippine Flappers:** The latest styles in island footwear.

TRAVEL

"Hiking Through Holland with Will Rogers"

No. T60 One Reel \$1.75

The second of the Will Rogers Travel-esques. He conducts a tour through the canals of Amsterdam, through the cobbled streets of Vollandam, and across the Zuider Zee to the quaint Isle of Marken, introducing the inhabitants as he goes along. An extremely interesting and amusing reel.

Quantity

SPORTS

"Swimming Form"

No. E34 One Reel \$1.75

The famous Gertrude Ederle shows both in and out of water just why she excels in this sport. Breathing, precision of arm movement, and foot action are all clearly demonstrated. The great Ethelda Bleib-trey imitates the fish and she and one of her troupe do a "Pin Wheel." A particularly interesting sport reel.

ANIMAL LIFE

"The Spirit of Play"

No. A32 One Reel \$1.75

The play instinct is born in every living creature. Kittens, puppies, young foxes and bear cubs all romp and play through this interesting reel which will delight the whole family.

FOR BEST RESULTS

Each time film is used it is important to proceed as follows:

Place reel on the axle of rewriter on top of Projector. Before threading film through film gate turn the rewriter crank swiftly several times in order to make the film spin freely.

If film refuses to spin freely unwind it entirely on a table, then rewind and proceed again as above.
