OFFICIAL AHA TRAINING CENTER

Life Support Certification in Downtown Wilmington

Fast-track your American Heart Association credentials with self-paced online modules paired with an automated 30-minute skills check.

AHA HeartCode® Certified | 30-Min Hands-on Check | Same-Day eCard

HeartCode Blended Model

1. Self-Paced Online Learning

Complete official American Heart Association cognitive coursework on your schedule. Modern clinical scenarios allow you to advance through interactive challenges without sitting through redundant lectures.

Healthcare professionals reviewing **CPR Courses in Wilmington** can complete their didactic training online at their own convenience before stepping into the testing suite.

2. 30-Minute Skills Session

Skip long full-day classroom sessions. Practice and demonstrate chest compressions, airway management, and AED deployment using an automated voice-assisted simulation station.

Receive objective real-time audio and visual metrics on depth, rate, and recoil, qualifying for immediate completion without scheduling delays.

Basic Life Support Program

HEALTHCARE PROVIDERS

Essential Resuscitation Skills

CPR Cart delivers official AHA HeartCode BLS certification designed for healthcare workers. Completing your **BLS Training Online** covers high-quality adult, child, and infant compressions, AED usage, and team resuscitation before your rapid in-person evaluation.

Advanced Cardiovascular Support

CRITICAL CARE TRACK

Tailored for acute care providers, emergency medicine physicians, code teams, and intensive care nurses.

Through comprehensive **ACLS Training Online**, clinicians master emergency cardiac algorithms, dysrhythmia identification, and targeted resuscitation protocols.

In-depth simulation cases reinforce pharmacological interventions for acute coronary syndromes, severe bradycardia, and acute ischemic stroke.

Hands-on session validates high-performance team leadership and bag-mask airway management in under 30 minutes.

Pediatric Advanced Life Support

PEDIATRIC MEDICINE

Pediatric Emergency Response

Specially tailored for pediatric care teams and emergency responders. Enrolling in **PALS Training Online** builds critical capabilities in recognizing pediatric shock, respiratory emergencies, and cardiac arrest management prior to hands-on testing.

The 30-Minute Skill Session

Self-Scheduled

Book convenient appointment slots throughout the week in Downtown Wilmington. Seamlessly integrate the quick check into your clinical rotation or day off.

Voice-Guided RQI

Advanced sensor manikins offer direct vocal coaching during ventilations and compressions, validating exact AHA depth and rhythm standards without bias.

Same-Day AHA eCard

Official American Heart Association digital certification and accompanying continuing education credits (CEUs) are processed and emailed directly upon completion.
