! THE PROBLEM WITH TRADITIONAL CLASSES

Why spend 4 hours in a classroom?

Healthcare professionals across Maryland are trading full-day BLS, ACLS, and PALS classes for a faster path. With the AHA HeartCode® module, you complete the cognitive portion online at home — then verify your skills at a self-service RQI® station in under 30 minutes. Same official AHA eCard. A fraction of the time on site.

30 min

In-person skill session at the West Annapolis RQI® station

Automated manikin feedback, no instructor pressure.

Same day

Official AHA eCard issued upon completion

Delivered to your inbox before you leave the station.

24/7

Flexible scheduling — book any time

Open station access for healthcare professionals on shift.

OUR MODEL

The HeartCode® Workflow

The HeartCode® model splits every certification into two efficient parts. Complete the AHA BLS, AHA ACLS, or AHA PALS online cognitive course at your own pace — anywhere, on any device. Then schedule a brief 30-minute hands-on skill session at our West Annapolis RQI® station, where automated manikins deliver real-time feedback and your official AHA eCard is issued the same day.

01

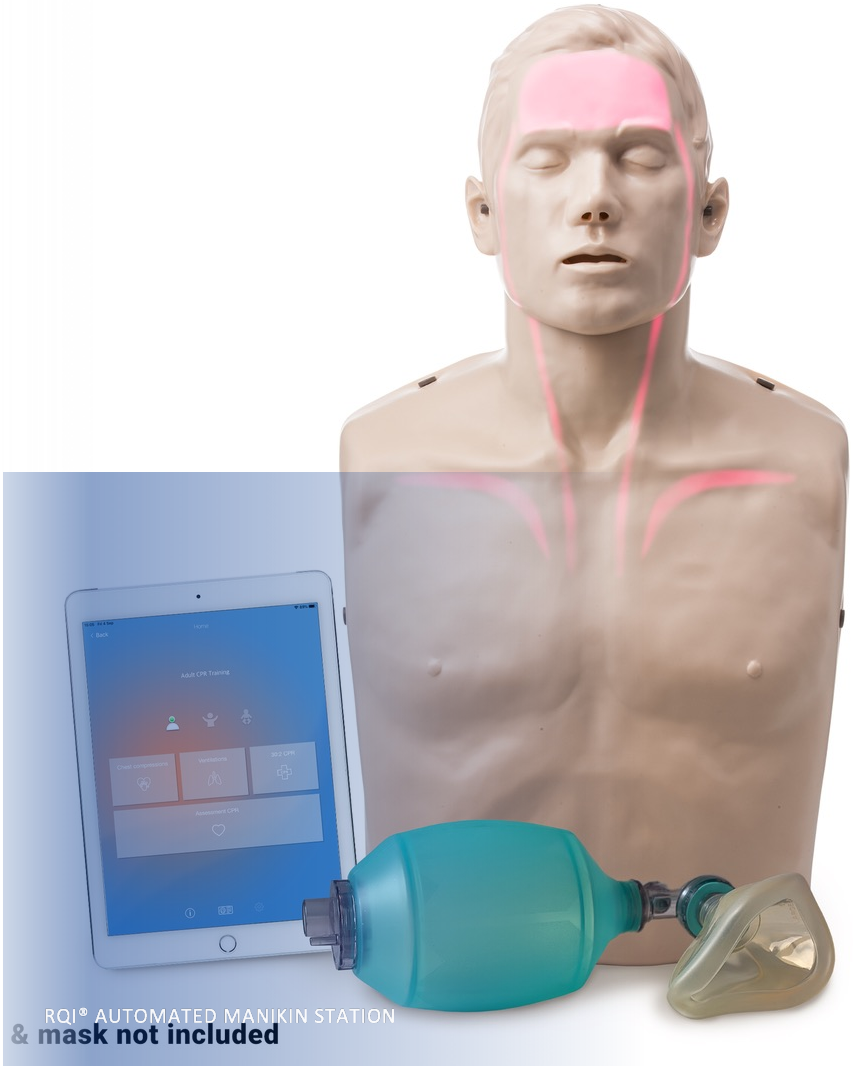

Online Learning (HeartCode®)

Self-paced modules on your laptop or tablet. Pause and resume anytime.

02

30-min Skill Session (RQI®)

Walk in, verify on automated manikins, walk out with your AHA eCard.

COURSE 01 OF 03

Basic Life Support

The AHA BLS course trains healthcare providers in high-quality CPR, AED use, and team dynamics for adult, child, and infant victims. HeartCode® BLS delivers the cognitive portion online through interactive simulations, then you verify your compressions, breaths, and AED workflow on an automated manikin at our West Annapolis station in under 30 minutes.

AUDIENCE

Nurses, EMTs, dentists, dental hygienists, medical assistants

ONLINE PORTION

HeartCode® BLS self-paced module (~1–2 hours)

SKILL SESSION

~30 min on RQI® automated manikins

CREDENTIAL

Official AHA BLS eCard, issued same day

Initial & Renewal available

Book Skill Session →

HIGH-QUALITY CPR · ADULT · CHILD · INFANT

COURSE 02 OF 03

Advanced Cardiovascular Life Support

The AHA ACLS course builds on BLS fundamentals, emphasizing a systematic approach to peri-arrest care, stroke, ACS, and high-performance team dynamics during resuscitation. HeartCode® ACLS delivers case-based simulations online, followed by a 30-minute megacode skill verification at our West Annapolis station.

Audience

Physicians, nurses, paramedics, and advanced practitioners responding to cardiovascular emergencies.

Online portion

HeartCode® ACLS case-based simulations, BLS prerequisite required. ~4–6 hours self-paced.

Skill session

~30-minute megacode verification at our Annapolis RQI® station, automated feedback.

Credential

Official AHA ACLS eCard issued same day. Initial or renewal available.

Prerequisite: valid AHA BLS credential.

COURSE 03 OF 03

Pediatric Advanced Life Support

The AHA PALS course equips healthcare providers to recognize and intervene in pediatric emergencies — respiratory distress and failure, shock, and cardiopulmonary arrest in infants and children. HeartCode® PALS brings interactive pediatric case scenarios online, paired with a 30-minute hands-on skill session at our West Annapolis location.

Respiratory emergencies

Shock recognition

Pediatric arrest algorithm

Audience — Peds ER, PICU, transport, and emergency response teams

Format — HeartCode® PALS online + 30-min skill session

Credential — Official AHA PALS eCard, same day
