4. The following passage then answer the questions that follow;

Acting is the skill of imitating something. It represents the reality of a person's daily life in his or her environment. Performing arts involve acting, storytelling, riddles, dance, dramatic poetry, comic skits, recitations, children's plays, and rituals. The performance that takes place during acting is called play. Some types of play use words and actions; others do not use words; and yet others involve dance drama. A play can end happily or sadly. An actor employs body movements, facial expressions, voice, the environment and imagination. This is meant to show the reality of what is being acted.

QUESTIONS:

- i. From the passage above write the meaning of the **acting** _____
- ii. What does the performing art involve? _____
- iii. What do we call the performing art that takes place during acting? _____
- iv. How can play end? _____
- v. Why an actor employs body movements, facial expressions, voice, the environment and imagination? _____
